

# Course 6 Worksheet: Spelling & Grammar Support – AI Error Correction Tools

This worksheet is designed to reinforce the concepts covered in Course 6. The focus is on how AI-powered spelling and grammar tools help students improve their writing by providing corrections, explanations, and real-time suggestions.

## Section 1: Reflection Questions

1. Why can spelling and grammar feel challenging for dyslexic learners?
2. How do AI spelling tools provide support beyond traditional spellcheckers?
3. Why is receiving explanations for corrections more helpful than just fixing mistakes?
4. How can predictive text and autocorrect reduce stress while writing?

## Section 2: Fill in the Blanks

1. AI writing assistants like \_\_\_\_\_ can suggest corrections in real time.
2. Unlike simple spellcheckers, AI tools understand the \_\_\_\_\_ of a sentence.
3. \_\_\_\_\_ text can help predict and complete words while typing.
4. The goal of AI error correction tools is not perfection, but improving \_\_\_\_\_ and confidence.

## Section 3: Match the Feature

Feature	Description
AI Spellchecker	Identifies errors and suggests corrections based on context
Grammar Correction	Reframes sentences to improve clarity and flow
Predictive Text	Helps complete words while typing
Explanations	Teaches the rule behind a correction

## Section 4: Activity

Write a short paragraph (4–5 sentences) about your favorite hobby. Then, paste it into an AI writing assistant such as Grammarly or Ginger. Review the corrections and explanations provided. Reflect: Which suggestions did you find most helpful? Did the tool make your writing clearer?
